139 The Esplanade, Golden Beach

WATER FRONT HOME - GOLDEN BEACH

This house was purpose built and designed for a family to live in and enjoy. There will never be a reason to leave. The home is large enough for the extended family with a self contained area on the lower level, along with extra living accommodation as well. The first floor (where the views will literally take your breath away), provides space in abundance and you will never feel cramped again.

In an area that is world renowned for its waterfront it is the caliber of the particular water frontage that defines the best from the rest. The Pumicestone Passage provides location without compromise along with the most spectacular views on the planet. The Pumicestone passage is one of a handful of places worldwide where you can see tidal river water, the foaming surf and sandy bar, rocky islands, national park, expanses of ocean blue and the Glass House mountains in the backdrop. It blends intimately in one breathtaking panorama into something different, hour after hour for eternity.
